

## Lift Away Graffiti Remover Specification and Data Sheet

### PRODUCT NAME

**Watch Dog Lift Away Graffiti Remover**

### MANUFACTURER

Dumond Chemicals  
1501 Broadway  
New York, NY 10036  
Phone: (212) 869-6350  
Fax: (212) 764-5762

### PRODUCT DESCRIPTION:

**Watch Dog™ Lift Away® Graffiti Remover** is a citrus based formulation which is biodegradable and safe for both the applicator and the environment. This product will easily and effectively remove most types of graffiti and stains from masonry, concrete, brick, glass, terrazzo, metal, wood and other difficult surfaces without damage. In most cases, the entire removal process will be under fifteen (15) minutes, simply apply, agitate, and rinse.

### FEATURES & BENEFITS:

- Safe, Environmentally Friendly, Citrus-Based Formulation
- Apply, Agitate, and Rinse Application
- Works Effectively on Spray Enamels, Markers, Inks, Crayon, etc.
- Ideal for Masonry, Concrete, Glass, Terrazzo, and Metal Surfaces
- No Harmful or Nauseous Fumes
- Versatile Graffiti Remover.....No Surface Damage!
- Aerosol Spray is Ideal for Cleaning Signs, Plastic, Postal Boxes, Desks, Bathroom Partitions, Glass, Transit Vehicles, Traffic Lights, Poles & Control Boxes, Playground Equipment, etc.

### TEST AREA:

**ALWAYS TEST** each type of surface/substrate before general uses to determine compatibility, yield, appearance, and desired results before overall application.

### HOW TO USE:

**Wear eye protection, rubber or latex gloves.**

- 1.** Apply product liberally at full strength, using a brush, roller or spray equipment directly onto the graffiti and surface being cleaned.
- 2.** Allow product to remain on the surface for several minutes and then use a nylon scrub-brush to agitate the product and dissolve the graffiti.
- 3.** For best results, rinse with a pressure washer (not to exceed 1200 PSI). Otherwise, use a water hose with nozzle at maximum pressure to rinse.
- 4.** Repeat process if necessary.
- 5.** Clean tools and equipment with soap and water.

**Note:** In most cases, graffiti will start to dissolve immediately. However, depending on the porosity of the surface and type of graffiti, it may be necessary to re-apply and scrub. For habitual graffiti damaged areas or substrates, we strongly recommend the application of an appropriate **Watch Dog Graffiti Barrier** to protect the cleaned surface and ease the removal of future graffiti.

### COVERAGE:

Approximately 200 sq. ft. per gallon, depending upon porosity of surface.

### SURFACE & AIR TEMPERATURES:

Optimum surface and air temperature ranges for application are between 40° and 90° F. When applied at temperatures below 40° F, the product efficiency is reduced.

### SAFETY & FIRST AID:

Use with adequate ventilation in confined areas, this product has an orange citrus aroma. Wear eye protection, rubber or latex gloves when handling.

**AVAILABILITY & COST:** Watch Dog™ products are available through a nationwide network of paint and hardware stores, and construction and safety supply distributors. For the outlet nearest you, call 800/245 -1191 or email [plaway@aol.com](mailto:plaway@aol.com).

**LIMITED WARRANTY:**

The manufacturer and distributors liability under any express or implied warranty is limited solely to replacement of product that is defective or refund of the purchase price. Claims must be made within one year of purchase and be accompanied with proof of purchase. The manufacturer and distributors shall not be liable for injury, labor or any consequential damages.
